SELF-SERVICE BOOK RETURN BOX

We offer you a self-service book return box. Now, your readers do not have to be restricted by library opening hours while returning books. They can choose any time by day or by night for a book return. A self-service box, which is usually freely accessible placed, gains in growing popularity among readers abroad and also in the Czech Republic. Our stainless steel box can be even placed outside and for books transport to the library an easy to operate cart is used. The cart is equipped with a slide on springs so that the books do not fall from a great height and the impact of the books is smooth. Moreover, a worker avoids excessive bending while the withdrawal of the books. Of course, there is a sufficiently large slot for inserting books but also such a box construction which prevents theft or removal of materials.

Parameters

- Box dimensions: 850 x 870 x 1125 mm
- The dimensions of the door for a cart: 780 x 860 mm
- Dimensions of an inner cart: 760 x 660 x 660 mm
- Large inlet of the box is sufficient for oversize books
- Equipped with four safety locks
- Inlet for books designed to prevent fluid getting into the cart with books
- Inlet for books designed to prevent theft or removal of materials
- The return cart is equipped with an elastic floating slide on springs, so that it prevents books from falling from a great height and the impact is very smooth
- Removing books from the cart is made easier thanks to the floating bottom and avoids excessive bending of a worker
- High capacity cart eliminates the need for frequent emptying of the box
- Handling of the cart through a wide handle and used wheels is very simple
- Box is made of stainless steel and thus resistant to moisture
- Mounting holes on the bottom of the box allow attaching the box to the floor for security against theft
- The box can be optionally equipped with a graphical label according to customer's wishes
